### \* Introduction

Welcome students! In this unit, you will learn all about copyright law. Then you will get the opportunity to be a student teacher. You will have to use the information you learned to create a multimedia presentation using a fun presentation tool . How will you teach your students about copyright law? Well that will be up to you!

The Public URL for this WebQuest:  
<http://zunal.com/webquest.php?w=64825>

You will click on each button on the navigation on left side of page, read material and follow instructions. There will be videos and animations to watch.

Open the PDF file **Copyright Assignment 1-3 Worksheets**, rename it adding your last name and type on PDF document to take notes and answer questions.

## Assignment4 - Multimedia Presentation

You are creating a digital presentation using Prezi to teach your "students" about copyright laws. In your presentation, you must address and answer the following questions:

- What is copyright?
- Why are copyright laws important?
- How should you cite your source?
- What does it mean to cite your source when you are doing research?
- What are some important things that you think kids should know about copyright?(have at least two)
- What should students know about downloading and copying pictures online?

For your slides you may use any clipart from Microsoft Office. You may use any online clipart that is copyright free. (meaning the creator stated that you can use the pictures without asking) A good site for free clip is on <http://www.pppst.com/clipart.html> You may not use **ANY COPYRIGHTED IMAGE** so you can't just do a google images search. If you use an image from the Internet for this presentation, you must read the copyright restrictions to see if you are allowed to use it.

- All images taken from the Internet must be cited on the end slide of your presentation as follows:

Author. Title of web page. Web page address Copyright year.

Make your Prezi story interesting. Be creative!
